Foundational Statement

Southern Cross Strategic Holdings Pte Limited (“the Company” or “SCSH”) is a values-driven security and support-services organisation. The Company holds that the protection of life, the dignity of every person, and integrity in conduct are the foundation of professional security service. This conviction shapes how the Company trains, equips and leads its personnel across the Kikori Development Project.

“Be strong and courageous. Do not be afraid; do not be discouraged, for the Lord your God will be with you wherever you go.” — Joshua 1:9

1.0 Purpose of the Policy

The purpose of this Training Policy is to establish a structured, professional and competency-based training framework for all Southern Cross Strategic Holdings Pte Limited personnel deployed to the Kikori Development Project (KDP) within the Papua LNG Project corridor. The Policy ensures that every security officer, supervisor, Quick Response Team (QRT) member, logistics officer, driver, communications operator and support staff member receives standardised, continuous and project-specific training that meets operational, safety, human-rights, community and client expectations.

The Policy is issued at a decisive stage of the Papua LNG Project. With the State-led Development Forum convened and the project advancing toward a Final Investment Decision, security personnel operate in an environment of heightened landowner engagement, community expectation and stakeholder scrutiny. Training under this Policy is therefore designed not only to build operational capability, but to ensure that the Company’s security posture is lawful, rights-respecting and aligned with the international standards that govern security provision on major extractive-industry projects.

This Policy also guarantees alignment with the following instruments:

- Quick Response Team (QRT) Standard Operating Procedures, Checklist Pack (Activation, Vehicle Readiness and Post-Incident) and QRT Training Manual
- Logistics and Stores Policy, Transport Policy and related Standard Operating Procedures
- Deployment and Guarding SOPs, Border Security, Lands Security, Sea Marshal, PSD, K9 and Operations Room policies
- The Company’s Zero-Tolerance Conduct, Ethics and Prohibited Behaviour Policy (SCSH-HR-GOV-001) and associated case-management SOP
- Landowner relations, community engagement and crisis-management expectations
- Occupational Health, Safety and Environment (HSE) requirements
- The Voluntary Principles on Security and Human Rights (VPSHR) and the IFC Performance Standards applicable to the Papua LNG Project
- The laws of Papua New Guinea, including applicable security-industry, firearms, employment and occupational health and safety legislation, and PNG cultural requirements
- The Company’s values, ethics and professional-conduct standards

2.0 Scope

This Training Policy applies to all Company personnel engaged on or in support of the Kikori Development Project, whether permanent, fixed-term, locally engaged or deployed from outside Papua New Guinea, including but not limited to:

- Security Guards and gatehouse officers
- Supervisors, Non-Commissioned Officers (NCOs) and Team Leaders
- Quick Response Team (QRT) members
- Drivers, escort and convoy personnel
- Logistics and stores personnel
- Communications and Operations Room operators
- Maritime and riverine (Sea Marshal) personnel operating from the Uramu Marine Base
- K9 handlers and detection-dog teams
- Field Managers and Team Leaders
- Any temporary, sub-contracted or project-specific staff

All training programmes must be delivered before deployment, with mandatory refresher and continuation training throughout the project lifecycle. No person may perform a security or safety-critical function on the KDP until the training and competency requirements of this Policy have been met and documented.

3.0 Definitions and Abbreviations

Term	Meaning
AAR	After-Action Review — a structured debrief conducted after exercises and incidents.
C2	Command and Control.
Competency	The demonstrated ability to perform a task to the required standard under operational conditions.
HSE / OHS	Health, Safety and Environment / Occupational Health and Safety.
IFC PS	International Finance Corporation Performance Standards on Environmental and Social Sustainability.
ILG	Incorporated Land Group — a legally recognised PNG landowner grouping.
KDP	Kikori Development Project.
LOU	Landowner Unit — landowners and landowner groupings within the operational area, including ILGs.
NCO	Non-Commissioned Officer.
PSD	Private Security Detail (close/personal protection).
QRT	Quick Response Team.
SOP	Standard Operating Procedure.
TNA	Training Needs Analysis.
VPSHR	Voluntary Principles on Security and Human Rights.

4.0 Legislative, Regulatory and Standards Framework

All training delivered under this Policy shall be consistent with, and shall reinforce compliance with, the following legal and normative framework applicable to security operations on the Papua LNG Project:

4.1 Papua New Guinea Law

- Applicable PNG security-industry licensing and regulatory requirements governing the provision of private security services and the accreditation of security personnel.
- Firearms, use-of-force and self-defence provisions under PNG law, where relevant to the Company's authorised scope of operations.
- PNG employment, industrial-relations and occupational health and safety legislation.
- PNG land, environment and community-relations law relevant to operations in Gulf Province and the wider project area.

4.2 International and Project Standards

- The Voluntary Principles on Security and Human Rights (VPSHR) — the recognised international standard governing the interaction between security providers and communities on extractive-industry projects, covering risk assessment, engagement with public and private security, and appropriate use of force.
- The IFC Performance Standards, in particular the standards addressing labour and working conditions, community health, safety and security, and stakeholder engagement.
- Client and project security requirements issued by or on behalf of the Papua LNG Project operator and its partners.
- Recognised international good practice on human rights, de-escalation and the proportionate use of force.

Where any conflict arises between this Policy and applicable law or a mandatory client standard, the law or the higher client standard shall prevail, and the Training Manager shall amend the affected training material accordingly.

5.0 Training Philosophy

Southern Cross Strategic Holdings Pte Limited adopts a training philosophy built on the following principles:

- Competency and capability — ensuring personnel can execute assigned tasks confidently and to a measurable standard.
- Preparedness — ensuring rapid, disciplined response to emergencies, QRT activations, roadblocks, landowner disputes, maritime incidents and security threats.
- Rights-respecting conduct — ensuring that every use of authority, search and response is lawful, proportionate and consistent with the Voluntary Principles on Security and Human Rights.
- Professional conduct — building a disciplined, ethical workforce that upholds high standards and community respect.
- Safety first — valuing the life and welfare of personnel, clients, communities and third parties above all operational objectives.
- Continuous learning — adapting training to the evolving challenges of the Papua LNG operating environment and to lessons learned from incidents and exercises.

6.0 Training Objectives

The objectives of this Training Policy are to:

- Equip all personnel with the skills required to implement Company SOPs safely, lawfully and effectively.
- Standardise knowledge and performance across all project sites, shifts and functions.
- Ensure QRT personnel operate at advanced tactical readiness within lawful and rights-respecting limits.
- Embed human-rights awareness and the Voluntary Principles on Security and Human Rights into all frontline conduct.
- Strengthen cultural, landowner-engagement and conflict-resolution competencies appropriate to Gulf Province and the wider project area.
- Provide correct procedures for logistics, stores, transport, radio communications and reporting.
- Ensure operational discipline, integrity and accountability.
- Maintain compliance with PNG legislation, client requirements and industry best practice.

7.0 Training Governance and Organisation

Training is governed through a defined line of accountability to ensure consistency, quality and compliance:

- Group Management approves the annual training plan and budget and holds overall accountability for training compliance.
- The Training Manager owns this Policy, maintains the annual training calendar, accredits instructors, and reports training status to management and the client.
- The QRT Commander leads all tactical and QRT-specific training and conducts readiness assessments.
- Site Supervisors and Team Leaders deliver daily toolbox refreshers and identify skill gaps for escalation.
- A Training Review (conducted at least annually, and after any major incident) evaluates the effectiveness of the programme and drives continuous improvement.

8.0 Training Categories

All training shall be categorised and delivered as set out below.

8.1 Induction Training (Mandatory for All Personnel)

Conducted prior to deployment and covering:

- Company background, mission and values
- Papua LNG Project and Kikori Development Project overview
- Code of Conduct, ethics and the Zero-Tolerance Conduct Policy (SCSH-HR-GOV-001)
- Site rules and access-control requirements
- Standard Operating Procedures (SOPs) overview
- Cultural awareness: Kikori, Gulf Province and Papua New Guinea
- Communication protocols
- Safety, first aid and emergency response
- Reporting requirements

- Human rights, use of force and de-escalation (introduction to the VPSHR)

8.2 Core Security Training

Delivered to all uniformed personnel:

- Guarding procedures
- Static, mobile and perimeter patrols
- Access control operations
- Gatehouse operations and visitor screening
- Incident reporting and logbook management
- Searches of persons, vehicles and bags — conducted lawfully and respectfully
- Conflict de-escalation and negotiation
- Use of radios and communication discipline
- Fatigue management
- Environmental awareness (swamps, rainforests and river systems)

8.3 Human Rights and Voluntary Principles (VPSHR) Training

Delivered to all personnel and reinforced through scenario exercises. Given the community-facing nature of security operations on the Papua LNG Project, this is a mandatory, standalone training stream:

- The Voluntary Principles on Security and Human Rights and their application to daily duties
- Human dignity, non-discrimination and the rights of communities and third parties
- The graduated use of force and the principles of legality, necessity, proportionality and accountability
- Rules on the use of force and rules of engagement applicable to the KDP
- Prohibition of abuse, harassment, bribery and unlawful detention
- Interaction and coordination with PNG public security forces consistent with the VPSHR
- Reporting, recording and escalation of alleged human-rights incidents through the case-management SOP

8.4 Community and Landowner Engagement Training

Delivered to supervisors, QRT and frontline personnel operating in community-facing roles:

- Understanding landowner units (LOUs), Incorporated Land Groups (ILGs) and the Development Forum context
- Culturally appropriate communication and respect for custom and community leadership
- Grievance awareness and referral to the project grievance mechanism
- Managing roadblocks, gatherings and disputes without escalation
- The security role in maintaining community trust during the pre-FID and construction phases

8.5 QRT (Quick Response Team) Training

Aligned with the QRT Policy, SOPs, Checklists and Training Manual:

- QRT mission profile and operational expectations

- Activation procedures and readiness checks
- Tactical movement formations
- High-risk response and incident containment
- Roadblock management procedures
- Landowner relations and safe negotiation
- Use of authorised defensive equipment
- Vehicle readiness protocols
- Post-incident procedures and evidence protection
- Night operations and low-visibility tactics

8.6 Maritime and Riverine (Sea Marshal) Training

Delivered to personnel operating from the Uramu Marine Base and on the river systems of the operational area, aligned with the Sea Marshal Security Policy:

- Small-craft handling, boat safety and man-overboard procedures
- Riverine and coastal patrol, escort and boarding procedures
- Water survival, personal flotation and marine first aid
- Navigation, weather awareness and river-condition assessment
- Communications and coordination with land-based QRT and the Operations Room

8.7 K9 Operations Training

Delivered to accredited handlers, aligned with the K9 Operations Policy:

- Handler–dog bonding, welfare, feeding and kennel management
- Detection, patrol and search deployment
- Safe integration of K9 teams with static, mobile and PSD operations
- Handling in crowds and community environments

8.8 Logistics and Stores Training

Aligned with the Logistics and Stores Policy:

- Stock receiving and issuing
- Inventory control and record-keeping
- Asset management
- Fuel management procedures
- Storage protocols for sensitive equipment
- Chain of custody for restricted items
- Procurement procedures
- Monthly stocktake requirements
- Reporting compliance

8.9 Communications Operator Training

- Radio operation and call signs
- Dispatch procedures

- Emergency activation and escalation
- Incident notification thresholds
- Coordinating QRT, patrols and supervisors
- Reporting formats and message logs
- Operations Room command-and-control discipline

8.10 Supervisors and Team Leaders Training

- Leadership and command presence
- Shift management
- Performance monitoring
- Report writing and incident documentation
- Conflict resolution with LOUs and communities
- Conducting toolbox meetings
- Security risk-assessment basics
- Human-rights supervision and duty of care
- Coordination with project management

8.11 Driver and Escort Personnel Training

- Defensive driving
- Vehicle checks (pre-trip and post-trip)
- Escort and convoy protocols
- Driving in Kikori terrain (mud, rivers and low visibility)
- QRT mobility support
- Journey management and route risk awareness
- Vehicle logbook and fuel management

8.12 Emergency and Crisis-Response Training

- Fire response
- First aid and CPR
- Evacuation and muster procedures
- Flooding, landslides and natural hazards
- Community-unrest response
- Medical emergency and medevac coordination
- Communication during critical events

9.0 Training Delivery Methods

The Company applies multiple delivery approaches to suit the competency and the operating environment:

- Classroom instruction
- Practical field drills
- Scenario-based simulation

- Tactical QRT exercises
- Role-play for landowner and community engagement
- On-the-job coaching and mentoring
- E-learning refreshers (where available)
- Instructor-led presentations
- Night-time and low-visibility operations training
- After-action reviews (AAR)

10.0 Training Needs Analysis

The Training Manager shall conduct a Training Needs Analysis (TNA) at least annually and whenever the project scope, threat environment or client requirements change materially. The TNA identifies the gap between required and current competency for each role, prioritises training accordingly, and informs the annual training plan and budget. Findings from incidents, audits, after-action reviews and trainee feedback shall feed directly into the TNA.

11.0 Training Frequency

The minimum training frequency for each stream is set out below. These are minimum requirements; additional training shall be delivered where risk, incidents or client direction require.

Training Type	Minimum Frequency
Induction Training	Before deployment
Core Security Training	Every 6 months
Human Rights / VPSHR Training	At induction and every 6 months
Community & Landowner Engagement	Every 6 months and before major project milestones
QRT Tactical Training	Monthly and after major incidents
Maritime / Sea Marshal Training	Quarterly
K9 Operations Training	Continuous (handler-led) + quarterly assessment
Logistics & Stores	Quarterly
Supervisory Training	Every 6 months
Communications Operators	Quarterly
Driver / Escort Training	Quarterly
Emergency & Crisis Response	Quarterly
Toolbox Refresher	Daily, before each shift
Full Project-wide Training Audit	Annually

12.0 Competency Assessment

All personnel shall be assessed for competency using a combination of the following methods:

- Written tests

- Practical demonstrations
- Scenario-based assessments
- QRT performance evaluations
- Supervisor evaluation reports
- Attendance and participation verification

Personnel who fail an assessment shall undergo remedial training and be re-assessed. No person may perform a role for which they have not achieved and maintained the required competency.

13.0 Certification and Accreditation

Upon successful completion of the required training and assessment:

- A Training Certificate shall be issued to the individual.
- The individual's personnel and training records shall be updated.
- Certification validity and expiry shall be tracked by the Training Manager.
- Where a competency requires external or regulatory accreditation, evidence of that accreditation shall be held on file.

No employee may be deployed to a security or safety-critical function without documented, current competency.

14.0 Training Records Management

The Training Manager shall maintain, securely and in an auditable form:

- Individual training files
- Attendance sheets
- Assessment results
- Certificates issued
- Remedial-training records
- QRT capability-readiness log
- Quarterly training reports for the client

All records shall be stored securely, protected in accordance with the Company's data and confidentiality standards, and made available during internal and client audits.

15.0 Instructor Qualifications and Accreditation

Training shall be delivered only by instructors who are accredited by the Training Manager. Instructors shall:

- Hold demonstrated competence and, where required, formal qualification in the subject taught.
- Possess relevant operational experience appropriate to the module.
- Be assessed for instructional capability and re-accredited periodically.
- Use only current, approved training material aligned with this Policy and the relevant SOPs.

The Training Manager shall maintain a register of accredited instructors and the currency of their accreditation.

16.0 Roles and Responsibilities

Management

- Approve training programmes.
- Provide resources and budget.
- Ensure training compliance.

Training Manager

- Coordinate all training activities.
- Maintain the training calendar and needs analysis.
- Accredite instructors and ensure they meet standards.
- Conduct the annual training review and client reporting.

QRT Commander

- Lead tactical training.
- Perform readiness assessments.
- Implement QRT SOP-aligned drills.

Supervisors and Team Leaders

- Conduct daily toolbox refreshers.
- Monitor performance and report skill gaps to management.

Logistics Officer

- Ensure stores and equipment support training requirements.

All Personnel

- Attend all required training.
- Uphold professional and rights-respecting conduct.
- Maintain personal certification and currency.

17.0 Quality Assurance and Continuous Improvement

The quality and relevance of training shall be sustained through:

- Regular audits of training quality and delivery.
- Structured feedback from trainees.
- After-action reviews following exercises and incidents.
- Updates to training modules driven by new threats, client requests, regulatory changes and lessons learned.

18.0 Monitoring and Key Performance Indicators

Training performance shall be monitored against measurable indicators reported to management and the client, including:

Key Performance Indicator	Target
Personnel deployed with current mandatory training	100%
Induction completed before deployment	100%
VPSHR / human-rights training currency	100%
QRT monthly tactical training completion	100%
Competency assessment pass rate (first or after remedial)	≥ 95%
Toolbox refreshers conducted per rostered shift	100%
Training records complete and audit-ready	100%

19.0 Enforcement

Non-compliance with this Training Policy may result in:

- Removal from deployment
- Suspension
- Mandatory retraining
- Disciplinary action under the Company's conduct and disciplinary framework

20.0 Policy Review

This Training Policy shall be reviewed:

- Annually
- After any major security incident
- When the project scope changes
- As required by the client or by changes in applicable law or standards

End of Policy — Southern Cross Strategic Holdings Pte Limited, Document No. SCSH-HR-TRG-001, Version 2.0.
