TRAINING — STANDARD OPERATING PROCEDURE

Kikori Development Project — Papua LNG Project Corridor
Gulf Province, Papua New Guinea

SOP No: SCSH-HR-SOP-TRG-001

Version 1.0 | Classification: Company Confidential

Issued under Training Policy SCSH-HR-TRG-001 (Version 2.0)

Effective Date: 01 August 2026 | Next Review: 01 August 2027

Document Control

Field	Detail
Document Title	Training Standard Operating Procedure
SOP Number	SCSH-HR-SOP-TRG-001
Version	1.0
Status	Approved — For Implementation
Classification	Company Confidential
Parent Policy	Training Policy SCSH-HR-TRG-001, Version 2.0
Issuing Authority	Managing Director / Group Management
SOP Owner	Training Manager (KDP)
Applicable Entity	Southern Cross Strategic Holdings Pte Limited (SCSH)
Operational Area	Kikori Development Project (KDP), Gulf Province
Applicable Sites	Papua LNG facilities, Kimu Gas Field, Barikewa Gas Field, Uramu Marine Base; Regional HQ Kerema
Effective Date	01 August 2026
Next Scheduled Review	01 August 2027

Version History

Version	Date	Author / Reviewer	Summary of Change
1.0	Aug 2026	Training Manager / Group Management	Initial issue. Converts the Training Policy (SCSH-HR-TRG-001 v2.0) into sequenced, field-ready operating procedures with responsibilities, run-sheets, records and KPI reporting.

Approval

Role	Name / Signature	Date
Prepared by — Training Manager		
Reviewed by — Operations Manager		
Approved by — Managing Director		

1. Purpose and Relationship to the Policy

This Standard Operating Procedure (SOP) translates the requirements of the Training Policy (SCSH-HR-TRG-001, Version 2.0) into the day-to-day procedures used to plan, deliver, assess, certify and record training for all personnel deployed to the Kikori Development Project (KDP).

The Policy states what must be achieved and why; this SOP states who does what, in what order, and with what records. Where this SOP and the Policy differ, the Policy prevails and the Training Manager shall correct this SOP.

Where any provision conflicts with applicable Papua New Guinea law or a mandatory client standard, the law or higher client standard prevails.

2. Scope

These procedures apply to every person engaged on or in support of the KDP — permanent, fixed-term, locally engaged, deployed, temporary or sub-contracted — across all functions, including security guards and gatehouse officers, supervisors, NCOs and team leaders, QRT members, drivers and escort/convoy personnel, logistics and stores staff, communications and Operations Room operators, Sea Marshal (maritime/riverine) personnel, K9 handlers and field managers.

No person may perform a security or safety-critical function on the KDP until the applicable training and competency requirements have been completed, assessed and documented under this SOP.

3. Definitions and Abbreviations

Term	Meaning
AAR	After-Action Review — structured debrief after an exercise or incident.
C2	Command and Control.
Competency	Demonstrated ability to perform a task to the required standard under operational conditions.
HSE / OHS	Health, Safety and Environment / Occupational Health and Safety.
IFC PS	International Finance Corporation Performance Standards.
ILG	Incorporated Land Group — a legally recognised PNG landowner grouping.
KDP	Kikori Development Project.
LOU	Landowner Unit — landowners and landowner groupings, including ILGs.
QRT	Quick Response Team.
RUF / RoE	Rules on the Use of Force / Rules of Engagement.
SOP	Standard Operating Procedure.
TNA	Training Needs Analysis.
VPSHR	Voluntary Principles on Security and Human Rights.

4. Responsibilities (Quick Matrix)

Role	Primary SOP Responsibility
Group Management	Approve the annual training plan and budget; hold overall accountability for training compliance.
Training Manager (Owner)	Own this SOP; run the TNA; maintain the training calendar; accredit instructors; issue certificates; keep records; report KPIs to management and client.
QRT Commander	Lead and schedule all QRT/tactical training; conduct readiness assessments; run tactical AARs.
Site Supervisors / Team Leaders	Deliver daily toolbox refreshers; identify and escalate skill gaps; verify attendance.

Role	Primary SOP Responsibility
Accredited Instructors	Deliver approved modules using current material; assess trainees; complete attendance and assessment records.
Logistics Officer	Ensure stores, equipment and training aids are available for scheduled training.
All Personnel	Attend all required training; maintain personal certification currency; uphold rights-respecting conduct.

5. How to Read the Procedures

Sections 6 to 9 contain the operating procedures, grouped as Planning & Governance, Delivery, Assessment & Certification, and Assurance. Each procedure carries a code (e.g. TRG-SOP-05), a short meta strip (Purpose, Trigger, Responsible, Output) and a numbered sequence of steps. The quick-reference annexes at the end summarise frequency, KPIs and forms.

6. Planning and Governance Procedures

TRG-SOP-01 — Annual Training Needs Analysis (TNA)

Purpose	Identify the gap between required and current competency for each role and feed the annual plan.
Trigger	Annually; and whenever project scope, threat environment or client requirements change materially.
Responsible	Training Manager (with input from QRT Commander, Supervisors, HSE and client).
Output / Record	Completed TNA Report; prioritised competency-gap list.

Procedure

1. List every role on the KDP and the competencies the Policy and relevant SOPs require for each.
2. Gather current-state evidence: certification records, assessment pass rates, incident and AAR findings, audit results and trainee feedback.
3. For each role, score the gap between required and current competency and rank by risk (safety-critical and rights-sensitive gaps first).
4. Record findings, priorities and recommended modules in the TNA Report.
5. Submit the TNA Report to Group Management as the basis for the annual training plan and budget.

Records: TNA Report filed in the training records system; superseded versions retained for audit.

TRG-SOP-02 — Annual Training Plan, Calendar and Budget

Purpose	Convert TNA priorities into a scheduled, resourced, project-wide training programme.
Trigger	On completion of the annual TNA; and on material change to the project.
Responsible	Training Manager; approved by Group Management.
Output / Record	Approved Annual Training Plan; published Training Calendar; approved budget.

Procedure

1. Draft the annual plan mapping each required module to roles, minimum frequency (Annex A) and target dates.
2. Cost the plan (instructors, venues, aids, consumables, travel) and prepare the training budget.
3. Submit plan and budget to Group Management for approval.

4. On approval, publish the Training Calendar to all sites and brief supervisors on their delivery obligations.
5. Review and re-baseline the calendar at least quarterly, and after any major incident, to reflect actual completion and new priorities.

Records: Approved Annual Training Plan, Training Calendar and budget retained by the Training Manager.

TRG-SOP-03 — Instructor Accreditation

Purpose	Ensure training is delivered only by competent, accredited instructors using approved material.
Trigger	Before an instructor delivers any module; and at each re-accreditation cycle.
Responsible	Training Manager.
Output / Record	Updated Instructor Register; individual accreditation record.

Procedure

1. Verify the candidate instructor's subject competence and, where required, formal qualification and operational experience.
2. Assess instructional capability (a supervised delivery or teach-back).
3. Confirm the instructor will use only current, approved material aligned to this SOP and the relevant policies.
4. Record the accreditation, its scope (which modules) and its expiry date in the Instructor Register.
5. Re-assess and re-accredit periodically; suspend accreditation immediately if standards lapse.

Records: Instructor Register; individual accreditation and re-accreditation records.

TRG-SOP-04 — Training Material Control

Purpose	Keep every module's content current, approved and version-controlled.
Trigger	On creation or amendment of any module; and after AARs, audits or regulatory/client change.
Responsible	Training Manager.
Output / Record	Version-controlled master training material.

Procedure

1. Hold a single master copy of each module's material, version-numbered and dated.
2. Amend material when driven by new threats, incidents, AAR lessons, client requests or legal/standard changes.
3. Withdraw superseded material from circulation; issue only the current approved version to instructors.
4. Record each material change and the reason for it.

Records: Master material register with version history.

7. Training Delivery Procedures

7.1 Generic Session Run-Sheet

Every scheduled classroom or field session — of any module — is run using the standard sequence below. The module-specific procedures that follow (TRG-SOP-05 onward) set the content; this run-sheet sets the method.

TRG-SOP-05 — Delivering a Training Session (Any Module)

Purpose	Run any scheduled session consistently, safely and with a complete record.
Trigger	A session falls due on the Training Calendar, or is directed after an incident.

Responsible	Accredited Instructor (module owner where applicable).
Output / Record	Completed Attendance Sheet; session record; assessment results where applicable.

Procedure

1. Confirm the correct, current material and that all trainees are eligible and available; arrange venue, aids and equipment through the Logistics Officer.
2. Open with objectives, safety brief and (for practical/field modules) a dynamic risk assessment.
3. Deliver the content using the approved method mix — classroom, field drills, scenario/simulation, role-play, on-the-job coaching, e-learning or night/low-visibility drills as specified for the module.
4. Run the assessment for the module (see TRG-SOP-16) and record each trainee's result.
5. Close with a short review/AAR of what to sustain and improve; capture any lessons for the Training Manager.
6. Complete the Attendance Sheet and submit all records to the Training Manager within the required timeframe.

Records: Attendance Sheet, session record, assessment results, and any AAR notes.

7.2 Module-Specific Delivery

Each module below is delivered using the run-sheet (TRG-SOP-05). The step list states the mandatory content and any special sequencing. Minimum frequencies are in Annex A.

TRG-SOP-06 — Pre-Deployment Induction (Mandatory — All Personnel)

Purpose	Ensure no one is deployed without the foundation briefing and baseline awareness.
Trigger	Before any person is deployed to the KDP.
Responsible	Training Manager / Accredited Instructor.
Output / Record	Induction completion record; signed Code of Conduct acknowledgement.

Procedure

1. Brief company background, mission and values, and the Papua LNG / KDP overview.
2. Deliver the Code of Conduct, ethics and the Zero-Tolerance Conduct Policy (SCSH-HR-GOV-001); obtain signed acknowledgement.
3. Cover site rules, access control, SOP overview, communication protocols and reporting requirements.
4. Deliver cultural awareness for Kikori, Gulf Province and PNG, and the introduction to human rights, use of force, de-escalation and the VPSHR.
5. Cover safety, first aid and emergency response basics.
6. Assess baseline understanding; record completion. Deployment is blocked until induction is complete.

Note: Induction is a gate, not a formality — deployment authority is withheld until the record is complete.

Records: Induction completion record; Code of Conduct acknowledgement filed in the individual training file.

TRG-SOP-07 — Core Security Training (All Uniformed Personnel)

Purpose	Build and refresh the baseline guarding skill set.
Trigger	At induction and every 6 months (or earlier on risk/incident).
Responsible	Accredited Instructor.
Output / Record	Assessed core-security competency record.

Procedure

1. Train guarding procedures; static, mobile and perimeter patrols; access control; gatehouse and visitor screening.

2. Train lawful and respectful searches of persons, vehicles and bags, and incident reporting and logbook management.
3. Train conflict de-escalation and negotiation, radio use and communication discipline, and fatigue management.
4. Train environmental awareness for swamps, rainforest and river systems.
5. Assess and record competency; schedule remedial training for any failure.

Records: Core-security assessment results in individual training files.

TRG-SOP-08 — Human Rights / VPSHR Training (Mandatory Standalone Stream)

Purpose	Embed rights-respecting conduct and the VPSHR into all frontline duties.
Trigger	At induction and every 6 months; reinforced through scenario exercises.
Responsible	Accredited Instructor (Training Manager oversight).
Output / Record	VPSHR currency record for each person.

Procedure

1. Teach the VPSHR and how they apply to daily duties; human dignity, non-discrimination and the rights of communities and third parties.
2. Teach graduated use of force and the principles of legality, necessity, proportionality and accountability, and the KDP rules on use of force / rules of engagement.
3. Teach the prohibition of abuse, harassment, bribery and unlawful detention, and lawful interaction/coordination with PNG public security forces.
4. Teach reporting, recording and escalation of alleged human-rights incidents through the case-management SOP.
5. Reinforce through scenario exercises; assess and record currency.

Note: VPSHR currency is a 100% KPI (Annex B) and a deployment condition.

Records: VPSHR training and scenario records; currency tracked by the Training Manager.

TRG-SOP-09 — Community and Landowner Engagement Training

Purpose	Equip community-facing personnel to engage lawfully and without escalation.
Trigger	Every 6 months and before major project milestones.
Responsible	Accredited Instructor.
Output / Record	Engagement competency record.

Procedure

1. Teach landowner units (LOUs), ILGs and the Development Forum context.
2. Teach culturally appropriate communication and respect for custom and community leadership.
3. Teach grievance awareness and referral to the project grievance mechanism.
4. Practise managing roadblocks, gatherings and disputes without escalation, and the security role in maintaining community trust in the pre-FID and construction phases.
5. Assess through role-play; record competency.

Records: Engagement assessment and role-play records.

TRG-SOP-10 — QRT (Quick Response Team) Tactical Training

Purpose	Maintain advanced tactical readiness within lawful, rights-respecting limits.
Trigger	Monthly, and after every major incident.

Responsible	QRT Commander.
Output / Record	QRT capability-readiness log entry.

Procedure

1. Rehearse the QRT mission profile, activation procedures and readiness checks (aligned to the QRT Policy, SOPs, Checklists and Training Manual).
2. Drill tactical movement formations, high-risk response and incident containment, and roadblock management.
3. Drill safe landowner negotiation, use of authorised defensive equipment, vehicle readiness, and night/low-visibility tactics.
4. Drill post-incident procedures and evidence protection.
5. Conduct a readiness assessment and AAR; update the QRT capability-readiness log.

Records: QRT capability-readiness log; monthly tactical training completion (100% KPI).

TRG-SOP-11 — Maritime / Sea Marshal Training

Purpose	Maintain safe, competent maritime and riverine operations from Uramu Marine Base.
Trigger	Quarterly.
Responsible	Accredited Instructor (maritime).
Output / Record	Maritime competency record.

Procedure

1. Train small-craft handling, boat safety and man-overboard procedures.
2. Train riverine and coastal patrol, escort and boarding procedures.
3. Train water survival, personal flotation and marine first aid.
4. Train navigation, weather awareness and river-condition assessment.
5. Train communications and coordination with land-based QRT and the Operations Room; assess and record.

Records: Maritime assessment records; PFD/marine-first-aid currency.

TRG-SOP-12 — K9 Operations Training

Purpose	Maintain handler competence and dog welfare across canine deployments.
Trigger	Continuous (handler-led) with quarterly assessment.
Responsible	Accredited K9 Handler / Training Manager.
Output / Record	Handler and team assessment record.

Procedure

1. Maintain handler–dog bonding, welfare, feeding and kennel management daily.
2. Train and rehearse detection, patrol and search deployment.
3. Train safe integration of K9 teams with static, mobile and PSD operations, and handling in crowds and community environments.
4. Conduct the quarterly assessment; record results.

Records: K9 handler/team assessment records; welfare logs.

TRG-SOP-13 — Logistics and Stores Training

Purpose	Ensure correct, auditable stores and asset handling.
Trigger	Quarterly.

Responsible	Logistics Officer / Accredited Instructor.
Output / Record	Logistics competency record.

Procedure

1. Train stock receiving and issuing, inventory control and record-keeping, and asset management.
2. Train fuel management, storage of sensitive equipment, and chain of custody for restricted items.
3. Train procurement procedures, monthly stocktake requirements and reporting compliance.
4. Assess and record competency.

Records: Logistics assessment records.

TRG-SOP-14 — Communications Operator Training

Purpose	Maintain disciplined Operations Room command-and-control and dispatch.
Trigger	Quarterly.
Responsible	Accredited Instructor (Ops Room).
Output / Record	Operator competency record.

Procedure

1. Train radio operation and call signs, dispatch procedures, and emergency activation and escalation.
2. Train incident notification thresholds and coordination of QRT, patrols and supervisors.
3. Train reporting formats, message logs and Operations Room C2 discipline.
4. Assess and record competency.

Records: Operator assessment records; message-log spot checks.

TRG-SOP-15 — Supervisor and Team Leader Training

Purpose	Build leadership, oversight and duty-of-care capability.
Trigger	Every 6 months.
Responsible	Training Manager.
Output / Record	Supervisory competency record.

Procedure

1. Train leadership and command presence, shift management and performance monitoring.
2. Train report writing and incident documentation, and conflict resolution with LOUs and communities.
3. Train conducting toolbox meetings, security risk-assessment basics, human-rights supervision and duty of care, and coordination with project management.
4. Assess and record competency.

Records: Supervisory assessment records.

TRG-SOP-16b — Driver and Escort Personnel Training

Purpose	Ensure safe defensive driving and convoy/escort discipline in KDP terrain.
Trigger	Quarterly.
Responsible	Accredited Instructor (driving).
Output / Record	Driver/escort competency record.

Procedure

1. Train defensive driving and pre-trip/post-trip vehicle checks.
2. Train escort and convoy protocols and driving in Kikori terrain (mud, rivers, low visibility).

3. Train QRT mobility support, journey management and route risk awareness, and vehicle logbook and fuel management.
4. Assess (including a practical drive) and record competency.

Records: Driver/escort assessment records; journey-management checks.

TRG-SOP-17 — Emergency and Crisis-Response Training

Purpose	Maintain readiness for fire, medical, natural-hazard and unrest events.
Trigger	Quarterly.
Responsible	Accredited Instructor (HSE-aligned).
Output / Record	Emergency-response competency record.

Procedure

1. Train fire response, first aid and CPR, and evacuation and muster procedures.
2. Train response to flooding, landslides and natural hazards, and community-unrest response.
3. Train medical emergency and medevac coordination, and communication during critical events.
4. Assess and record competency.

Records: Emergency-response assessment records; drill logs.

TRG-SOP-18 — Daily Toolbox Refresher

Purpose	Reinforce one key point per shift and surface skill gaps early.
Trigger	Daily, before each rostered shift.
Responsible	Site Supervisor / Team Leader.
Output / Record	Toolbox attendance record.

Procedure

1. Select the day's topic (safety, an SOP point, a VPSHR reminder, or a lesson from a recent incident/AAR).
2. Deliver a short brief and confirm understanding at the muster.
3. Note any skill gap and escalate it to the Training Manager for the TNA.
4. Record attendance for the shift (100% KPI).

Records: Daily toolbox attendance records.

8. Assessment, Certification and Records Procedures

TRG-SOP-19 — Competency Assessment

Purpose	Confirm each person can perform their role to the required standard before and during deployment.
Trigger	At the end of each module; and as scheduled for continuation checks.
Responsible	Accredited Instructor / QRT Commander (tactical).
Output / Record	Assessment result recorded against the individual.

Procedure

1. Assess using the appropriate method(s): written test, practical demonstration, scenario-based assessment, QRT performance evaluation, supervisor evaluation, and attendance/participation verification.
2. Record a clear pass or fail against the required standard.
3. For a pass, proceed to certification (TRG-SOP-21).

4. For a fail, initiate remedial training (TRG-SOP-20). The person may not perform the role until competent.

Note: First-or-after-remedial pass rate target is $\geq 95\%$ (Annex B).

Records: Assessment results in the individual training file.

TRG-SOP-20 — Remedial Training and Re-Assessment

Purpose	Return a person who failed an assessment to the required standard.
Trigger	An assessment result of fail.
Responsible	Training Manager / Instructor.
Output / Record	Remedial-training record and re-assessment result.

Procedure

1. Identify the specific competency gap from the failed assessment.
2. Deliver targeted remedial training on that gap.
3. Re-assess using the same standard.
4. On pass, certify and deploy; on repeated fail, escalate to the Training Manager and (if role-critical) withhold or remove from that role.

Records: Remedial-training records and re-assessment results.

TRG-SOP-21 — Certification and Accreditation Issue

Purpose	Formally record achieved competency and track its validity.
Trigger	On a passing assessment.
Responsible	Training Manager.
Output / Record	Training Certificate; updated personnel/training record.

Procedure

1. Issue a Training Certificate to the individual for the module passed.
2. Update the individual's personnel and training records.
3. Record certification validity and expiry, and set a reminder ahead of expiry for refresher scheduling.
4. Where a competency needs external or regulatory accreditation, hold evidence of that accreditation on file.
5. Confirm no person is deployed to a security or safety-critical function without documented, current competency.

Records: Training Certificates; certification/expiry register.

TRG-SOP-22 — Training Records Management

Purpose	Maintain secure, auditable training records and client reporting.
Trigger	Continuous; formal reporting quarterly.
Responsible	Training Manager.
Output / Record	Complete, audit-ready training records; quarterly client report.

Procedure

1. Maintain individual training files, attendance sheets, assessment results, certificates and remedial records.
2. Maintain the QRT capability-readiness log and the certification/expiry register.
3. Store all records securely and in line with the Company's data and confidentiality standards.
4. Produce the quarterly training report for the client and make records available for internal and client audits.

Records: The full training records set (100% complete and audit-ready — Annex B).

9. Assurance, Review and Enforcement Procedures

TRG-SOP-23 — After-Action Review (AAR)

Purpose	Capture and feed forward lessons from exercises and incidents.
Trigger	After every major exercise and after every incident.
Responsible	Facilitator (QRT Commander for tactical; Instructor/Supervisor otherwise).
Output / Record	AAR record with actions.

Procedure

1. Reconstruct what was planned, what happened and why, without blame.
2. Identify what to sustain and what to improve, with owners and dates.
3. Feed training-related lessons into the TNA (TRG-SOP-01) and material control (TRG-SOP-04).
4. File the AAR record and track actions to closure.

Records: AAR records and action tracker.

TRG-SOP-24 — Training Audit and KPI Reporting

Purpose	Verify training quality, delivery and compliance, and report performance.
Trigger	Full project-wide training audit annually; KPI reporting quarterly.
Responsible	Training Manager (with AQAC/audit support).
Output / Record	Audit report; quarterly KPI report to management and client.

Procedure

1. Audit training quality and delivery against this SOP and the Policy at least annually.
2. Collect structured trainee feedback and review it with AAR and incident findings.
3. Measure the KPIs in Annex B and report them to management and the client each quarter.
4. Raise corrective actions for any KPI below target and drive continuous improvement.

Records: Audit reports; quarterly KPI reports; corrective-action log.

TRG-SOP-25 — Non-Compliance and Enforcement

Purpose	Respond consistently where training/competency requirements are not met.
Trigger	A person deployed or performing a role without current, documented competency; or breach of this SOP.
Responsible	Supervisor / Training Manager / Management.
Output / Record	Enforcement record.

Procedure

1. On discovery, stand the person down from the affected role until competency is restored.
2. Apply the appropriate measure: removal from deployment, suspension, or mandatory retraining.
3. Where conduct warrants it, refer to the Company's conduct and disciplinary framework (SCSH-HR-GOV-001 and case-management SOP).
4. Record the action and the return-to-role decision.

Records: Enforcement and return-to-role records.

TRG-SOP-26 — SOP Review and Amendment

Purpose	Keep this SOP aligned with the Policy, law, client standards and lessons learned.
----------------	---

Trigger	Annually; after any major security incident; on project-scope change; or on client/legal change.
Responsible	Training Manager; approved by Management.
Output / Record	Reviewed / re-issued SOP with updated version history.

Procedure

1. Review this SOP against the parent Policy, current law, client standards, audit findings and AAR lessons.
2. Draft amendments and update the version history.
3. Obtain Management approval and re-issue; withdraw superseded copies.
4. Brief affected personnel on the changes.

Records: SOP version history; approval record.

Annex A — Training Frequency Quick-Reference

Minimum requirements. Additional training is delivered where risk, incidents or client direction require.

Training Type	Minimum Frequency
Induction Training	Before deployment
Core Security Training	Every 6 months
Human Rights / VPSHR Training	At induction and every 6 months
Community & Landowner Engagement	Every 6 months and before major project milestones
QRT Tactical Training	Monthly and after major incidents
Maritime / Sea Marshal Training	Quarterly
K9 Operations Training	Continuous (handler-led) + quarterly assessment
Logistics & Stores	Quarterly
Supervisory Training	Every 6 months
Communications Operators	Quarterly
Driver / Escort Training	Quarterly
Emergency & Crisis Response	Quarterly
Toolbox Refresher	Daily, before each shift
Full Project-wide Training Audit	Annually

Annex B — Key Performance Indicators

Key Performance Indicator	Target
Personnel deployed with current mandatory training	100%
Induction completed before deployment	100%
VPSHR / human-rights training currency	100%
QRT monthly tactical training completion	100%
Competency assessment pass rate (first or after remedial)	≥ 95%
Toolbox refreshers conducted per rostered shift	100%
Training records complete and audit-ready	100%

Annex C — Forms and Records Register

Record / Form	Owner & Retention
TNA Report	Training Manager — retained; superseded versions kept for audit
Annual Training Plan / Calendar / Budget	Training Manager — current+ prior cycle

Record / Form	Owner & Retention
Instructor Register & accreditation records	Training Manager — kept current, expiry-tracked
Master training material (version-controlled)	Training Manager — current+ version history
Attendance Sheets	Instructor → Training Manager — per session
Assessment & remedial results	Individual training file
Training Certificates & expiry register	Training Manager — validity-tracked
QRT capability-readiness log	QRT Commander → Training Manager
Daily toolbox attendance	Supervisor — per shift
AAR records & action tracker	Facilitator → Training Manager
Quarterly client training report	Training Manager — quarterly
Audit reports & corrective-action log	Training Manager / AQAC — annually + actions
Enforcement / return-to-role records	Management / Training Manager

Annex D — Acknowledgement

I confirm that I have read and understood the Training Standard Operating Procedure (SCSH-HR-SOP-TRG-001, Version 1.0) and that I will comply with the procedures relevant to my role.
